LOCATION Austin, Texas

AREA 100,000 sf

COST \$13,600,000

ARCHITECT TeamHaas Architects

Pickle Elementary School / St. John Community Center eddler

The first sustainable school to be constructed by the Austin Independent School District and the first collaboration between the City of Austin and AISD was completed in September of 2001. The project exhibits innovation in the use of insulated tilt-wall construction and sustainable design philosophies. The triangular library has a variable arched roof structure that serves as an aesthetic component.
