LOCATION City, State
SPAN 80 ft

COST \$1,000,000

ARCHITECT Eleanor McKinney
Landscape Architect

This pedestrian bridge has a 12-foot wide, wood deck and spans 80 feet across a tranquil, boulder-terraced creek in the remembrance gardens of Riverbend Baptist Church. The primary structure is a true three-hinged arch, framed in structural steel, and steel arch and deck members are compact to impart a delicate visual profile, appropriate to the peaceful setting.
